

PLAYGROUND DEVELOPMENT

Background

The Division encourages the development of playgrounds at the local school level.

Procedures

1. The School Community Councils and other local community groups contemplating playground development shall work in conjunction with the Principal and the Supervisor of Facilities.
2. A detailed development plan including a budget showing revenue sources and expenditures is to be presented to the Chief Financial Officer.
3. Safety, equipment and access standards in accordance with Canadian Standards Association requirements shall be adhered to, as detailed by the Supervisor of Facilities.
4. Details of the actual improvement or construction involving tenders, purchasing and contracting services are to be in accordance with directives from the Division provided by the Supervisor of Facilities.
5. Any school ground development plan shall consider the effects of long-term development and represent a safe condition for students.
6. At the completion of each project, the Supervisor of Facilities shall conduct an inspection and complete a written report to the Chief Financial Officer.
